

Oladele David Temidayo

DevOps / Platform Engineer

📍 Lagos 📞 07015336340 📧 oladeledavidtemidayo@gmail.com

Summary

DevOps / Backend Engineer with hands-on experience building and operating backend systems using NestJS and Django, supported by automated CI/CD pipelines and cloud infrastructure on AWS. Focused on delivering reliable, maintainable, and secure production systems through strong DevOps practices.

Experience

Meerge Africa

May 2025 - September 2025

DevOps / Cloud Infrastructure Engineer

Lagos

Managed AWS infrastructure for Meerge's web applications, including RDS (PostgreSQL) databases and caching layers (Valkey/Redis). Implemented CI/CD pipelines with GitHub Actions, configured Nginx with SSL for secure deployments, and orchestrated development and production environments using PM2 and Portainer to ensure high availability and smooth releases.

Kittchens

Oct - 2025

DevOps / Cloud Infrastructure Engineer

🔗 <https://kittchens.com>

Deployed autoscaling EC2 servers for backend services and hosted the frontend on AWS. Implemented CI/CD pipelines, managed DNS and domain routing for `kittchens.com` and `www.kittchens.com`, and configured SMTP services for transactional and work emails. Ensured high availability through load balancing, SSL, and proactive monitoring.

Frootify

November 2024 - September 2025

Software Engineer (Backend)

🔗 <https://frootify.tech/>

At Frootify, I collaborate closely with the CTO to build and maintain backend APIs, ensuring seamless integration with frontend systems. My responsibilities include designing, implementing, and optimizing backend solutions, contributing to strategic planning, and supporting the development of scalable and efficient services to enhance the platform's functionality.

VeldtsDigital Limited

Jan 2023 - Present

Software/DevOps Engineer

Lagos

- Designed and developed a scalable, high-availability web application that handled multiple concurrent users with minimal downtime
- Developed and maintained multi-tenant software in multiple programming languages, such as PHP, Python, and JavaScript

OpensDigital Limited

Feburary 2019 - December 2022

Software Developer/Cloud Engineer

Ikeja-Lagos

As a Software Developer at OpensDigital Limited, I collaborate with a talented team to design and develop innovative software solutions. I ensure high-quality, user-friendly applications using cutting-edge technologies from conception to deployment. I am committed to continuous improvement and keep up with industry trends in order to deliver efficient and secure software that enables our clients' success.

Education

ALX AFRICA

May 2023 - October 2024

Software Engineering (Backend)
